RELEVANT WORK

Sony Cinemaline 101 and Education

Since 2017, Katie works out of the DMPC as an ambassador for Sony Cameras. She works with the Sony team to create videos that communicate the basics as well as the nuances of the cameras with the intention of transparency and accessibility. She helps cultivate relationships with industry members and guilds to educate and train them on various cameras in the Sony Cinemaline. She has worked all over LA and the US, having spoken at CineGear and NAB with the goal of fostering comfortability with Sony amongst DPs, Camera Assistants, Operators, and hybrid shooters.
